# Web Photo Gallery
Information Sheet

Overview

The Town of Enfield web site has a new photo gallery to which Town photographers may submit digital photos for posting.

The Web Photo Gallery serves the public interest by publicizing the Town of Enfield's history, culture, scenery, programs and events by presenting images of Enfield on the web and by fostering community involvement.

A full size jpg image file of each photo may be accessed and viewed simply by clicking on its thumbnail image in the photo gallery.

The IT Department developed and maintains the Photo Gallery, and all submissions are reviewed for posting. A Photo Release Form is required for all submissions and submitted materials become the property of the Town of Enfield.

Highlights

- Individual photographers are encouraged to submit digital photos for inclusion
- Photos provide a unique view of Enfield that complements the information provided on the web site
- The photo gallery fosters community participation and provides an added way to draw visitors to the web site
- Full size jpg image files are available to visitors for viewing
- A Photo Release Form is required for all submissions to meet legal requirements and ensure proper documentation

Interaction with Other Systems

- The photo gallery is part of the Town of Enfield web site that provides an interactive opportunity for community photographers
- The site for the photo gallery is hosted by a Town of Enfield's server
